

LaserPro DRILLING

RD35DX

Wet drilling of reinforced concrete, masonry and tiles. Low to medium HP drills, 1/2" BSP pin back end.

12-102mm

REINFORCED CONCRETE

RC70D

Wet drilling of reinforced concrete and masonry. Medium to high HP drills, 1 1/4" UNC box back end.

40-117mm

REINFORCED CONCRETE

RC50D

Wet drilling of reinforced concrete and masonry. Medium to high HP drills, 1 1/4" UNC box back end.

130-600mm

REINFORCED CONCRETE

RC40D

Wet drilling of reinforced concrete. Very large holes, high HP drills, 1 1/4" UNC box back end.

200-800mm

REINFORCED CONCRETE

A50

Wet drilling of asphalt. Medium to high HP drills. 1/2" UNC box back ends.

100-250mm

ASPHALT

Extension rods, adaptors, water swivels

DRILLING ACCESSORIES

Laser Lasertough

LD20

Dry cutting of medium hard clay bricks, concrete and refractory bricks.

230-450mm

LASERTOUGH

LD10

Dry cutting of very hard non abrasive clay bricks

230mm

LASERTOUGH

LD30

Dry cutting of soft abrasive block, stock bricks and asphalt

230-350mm

LASERTOUGH

LaserPro SAWING

ASP70

Wet cutting, asphalt on medium to high HP saws

300-900mm

ASPHALT

GC77

Wet cutting green concrete less than 48 hours old, asphalt and very abrasive material

300-400mm

GREEN CONCRETE

JW60

Joint widening in concrete, slot cutting in asphalt

300-350mm

JOINT WIDENING

CC38

Wet cutting cured concrete, very hard aggregates, fast cutting on medium to high HP saws

300-750mm

CURED CONCRETE

WX50

Wall sawing reinforced concrete

500-1500mm

WALL SAWING

PS50/80

Wet cutting pre stressed concrete, pre cast concrete

450-1100mm

PRE STRESSED CONCRETE

A80

Wet floor grinding of cured concrete

250-300mm

FLOOR GRINDING

DIAMONDWIRE

A range of wires for fast cutting of heavily reinforced concrete, masonry, block and stone

10.4/11.4mm

REINFORCED CONCRETE

RS50

Wet cutting concrete and masonry on Rim saws

350mm

RIM SAW BLADES
